PROFILE SUMMARY

I am a full-stack developer with a passion for crafting robust and interactive web applications. My expertise includes Python Django, HTML, CSS, JavaScript, Bootstrap, and PHP, enabling me to build dynamic and scalable solutions. With a keen eye for design and a focus on user experience, I transform ideas into seamless digital products.

EDUCATION

2017 - 2020
SUHUM PRESBYTARIAN SHS

- General Arts

2020 - 2024
UNIVERSITY OF CAPE COAST

- Bachelor Of Science Information
Technology

WORK EXPERIENCE

Fawe FM Ghana 2019 - 2023
Social Media Manager & Web developer

- As the Social Media and Web Development Specialist at Fawe FM, I was responsible for managing and enhancing the organization's digital presence through both social media and website platforms. My role involved developing and maintaining the Fawe FM website, creating and executing social media strategies, and ensuring a cohesive and engaging online presence to support the organization's objectives and outreach efforts.

Canadian Independent College Organization 2023 - 2024
Frontend Developer

- As the Frontend Developer for GHANACIC.com, the official website for the Canadian Independent College Organization (CICO), I was responsible for creating a user-friendly and visually appealing web experience that effectively communicates the organization's mission, community involvement, and admission requirements. My role involved translating design concepts into functional and responsive web pages, ensuring a seamless user experience for prospective students and the community.

University Of Cape Coast (CITSA Dept.) 2023 - 2024
Social Media Manager

- As the Social Media Head Manager for the CITSA (Computer and Information Technology Students Association) at the University of Cape Coast (UCC), I lead the strategic planning and execution of social media initiatives to enhance the association's online presence and engagement with students, faculty, and the broader community.
